ANNOUNCEMENT:

March 11, 2022

As many of the COVID-19 restrictions are set to end on Tuesday, March 15th, we move towards living with COVID-19 outside of public health orders. As part of the health care sector, our offices will continue to remain vigilant in our efforts to limit the spread of COVID-19 in our communities.

MASK AND PRE-SCREENING PROTOCOLS

In line with current public health orders relating to health care settings, we will keep our mask mandate and pre-screening questions in place until further notice. Masks will still be required for entrance into the office and should be kept on for the duration of your appointment, apart from when treatment is being done in the dentist or hygienist chair.

****We will provide you with a mask, if you do not have one. ****

SELF-ISOLATION

After March 15th, those who test positive for COVID-19 are no longer required to self-isolate. For patients who are unwell or have tested positive for COVID-19 and have an upcoming appointment, *we strongly recommend postponing any dental treatment until you are feeling better.* Our staff will find the soonest available opening once you've recovered.

Thank you for your understanding and cooperation. We are grateful to have patients who placed their confidence and trust in us to keep them safe and who continued to see us during the pandemic.
