

COVID-19 Update

Integral, Pearl, and Ellice Dental patients,

Yes, we are open for urgent and emergency dental care.

Thank you, Winnipeg - with our concerted efforts to control COVID-19, the province has phased in the re-opening of our province as of May 4. Our office appreciates the cautionary reopening and fully supports the guidelines of the Manitoba Dental Association to safely treat urgent and emergency cases for now.

We have put in place measures that allow us to provide the service our patients expect and require. We are now focused on preventing the resurgence of COVID-19 and we ask for your understanding as we observe these protocols intended to keep both our dental team (while providing treatment) and our patients (while receiving dental care) safe.

Our Integral Dental office on Portage Avenue is open for emergency and urgent dental care and we aim to open our other locations soon. We thank our existing patients for the patience in the past few weeks. We welcome new patients. For emergency or urgent dental care, call [204-560-0011](tel:204-560-0011).

Regards,
Integral Dental Management
